Emergent Strategy

How Emergent Strategy Works

Emergent strategy accepts that a realized strategy emerges over time as the initial intentions collide with, and accommodate to, a changing reality.

Four Qualities of a Discerning Community

- **Observe:** the signs of the times and subtle shifts to respond to God's unfolding call.
- **Imagination:** The ability to imagine a future that does not exist yet will be taken for granted in the future.
- **Listen with an open heart:** Enter into the heart space so God can open wider the ability to deepen one's meaning and purpose.
- **Integration:** Recognize the spiritual reality of "oneness" through integration.

Example of an eco-system

“This is the secret, dear friends, all of us are called to share in it. God expects something from you. God hopes in you. He comes to open the doors of our lives, our dreams, our ways of seeing things. God comes to break open everything that keeps you closed in. He is encouraging you to dream. He wants to make you see that, with you, the world can be different. For the fact is, unless you offer the best of yourself, the world will never be different.”

Pope Francis, A Future of Faith: the Path of Change in Politics and Society
